What's the story behind

CONTTESSA

In the Marriage of Figaro, Contessa Rosina is a master of information management. Presenting herself in disguises and revealing only the content she deems appropriate in each situation, she finally gets her husband to stop considering third parties and stick with her!

Conttessa Overview

Definition: Centralized tool that manages and distributes static hotel content (descriptions, amenities, etc.) to third-party channels (e.g., OTAs, bed banks, metasearch, chatbots)

Main function: Automates updates across all third-party channels so guests always see the most recent hotel information

Key objectives:

- Maximize data quality
- Prevent guest disappointment through precise product and service descriptions
- Reduce hotel staff workload

Why it matters today:

- Static content plays a key role in bookings once price objections are overcome, acting as **Conversion Content that seals the deal**
- Rich, unique static content is a **proven driver of direct bookings**
- AI search enables deep, adjective-based queries, giving hotels a **fresh competitive edge**

Benefits

Central database manages static content of all connected online channels

Content parity is assured for multi-channel distribution (disparity can exceed 40%)

Time savings of more than 50% allows staff to focus on value-added guest services

Improves visibility/page ranking through optimal listing of relevant search criteria

Secures persistent OTA Content Score of 100% (for channels with this feature)

Increases hotel information accuracy (OTA criteria updates without notification of the hotel)

Reduces negative guest reviews (content parity avoids wrong guest expectations)

Optional: Keep images accurate with the self-managed image tracker

Scope of Content Managed

Descriptive Content

- Hotel Profile
- Room Types
- Hotel Amenities
- Hotel Services
- Hotel Policies
- Extra Charges
- Search Criteria and many others

Hotel Description

h2c review of free flow text

Visual Content

Images

Review by h2c during Onboarding Check, Implementation by hotel chain or via Leonardo/ICE Portal

Optional: Image Tracker

The hotel monitors correct image loadings per channel on a regular basis via h2c's self-service tool

Full content update for each selected channel

Channel Coverage

Agoda ¹	Kurzmalweg.de
Airbnb	Kurzurlaub.de
Booking.com ¹	Lastminute
Check24	Mr. & Mrs. Smith
Dayuse	ODIGEO
Dnata	Ostrovok
Expedia incl. hotels.com & ebookers ²	Prestigia
Google My Business ²	Tablethotels
HolidayCheck	Tagungshotels.de
Hotelbeds ¹	TOMAS
HotelsCombined	TripAdvisor
Hotelspecials	Trip.com
HotelTonight	Trivago
HRS incl. hotel.de ¹	Wego
Jumbo Tours	Zoweg.nl

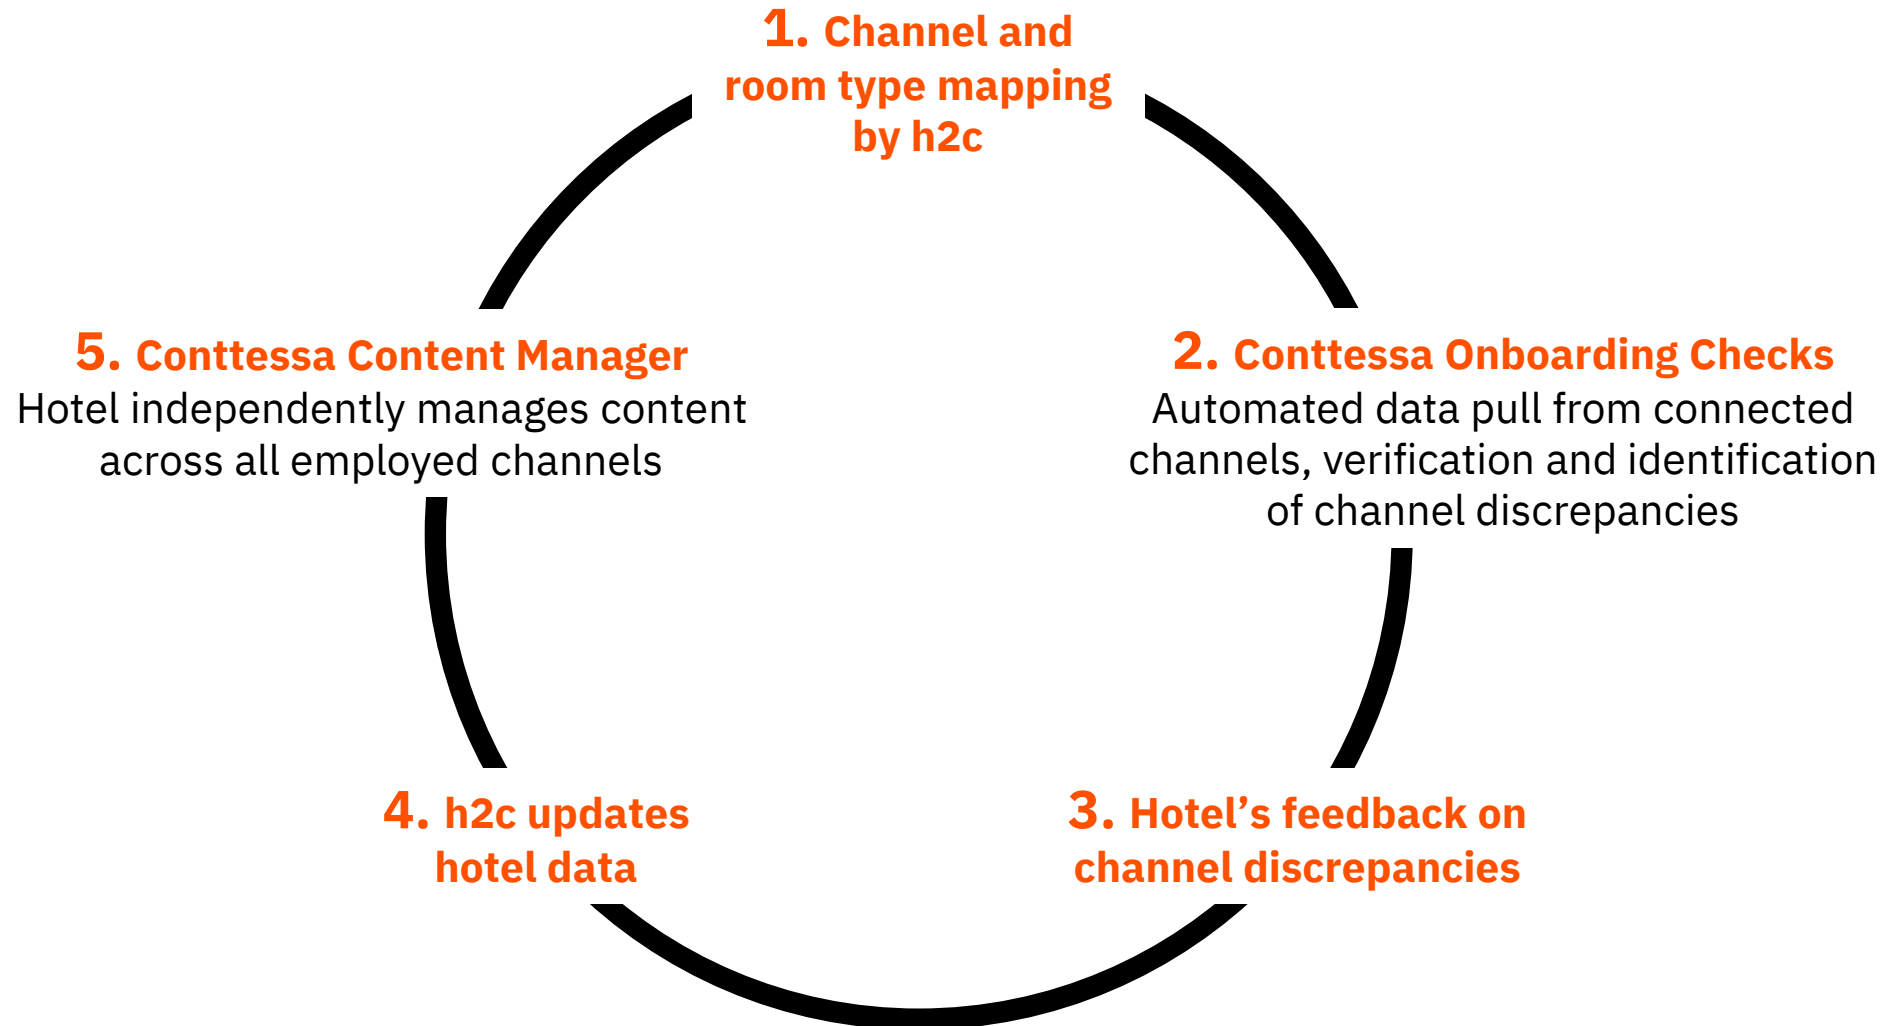

Chatbot Integration

Hi Jiffy

¹ Contessa automatically updates channel. All other channels are in the pipeline for automated updates (currently handled manually)

² Semi-automated channel

Hotel Onboarding Process

Conttessa Management Process

Instant Updates

Who triggers updates?	What triggers content updates?	How does Conttessa react?
Hotel	Changes in hotel characteristics, amenities, seasonal offers, etc. e.g., restaurant terraces	Conttessa updates all employed channels and improves time to market.
OTAs (without prior notice to hotels)	Regular changes in OTA extranet/frontend e.g., additional criteria	New criteria are mapped, and hotel receives timely email alerts . Hotel updates new criteria in Conttessa.
OTAs (without prior notice to hotels)	Regular OTA Content Score algorithm updates OTAs renew algorithms about 4 times per year, thereby reducing the hotel's content score	Conttessa updates the OTA's new requirements, assuring content scores of 100% . Hotel receives email alert if feedback is required.
Hotel or OTAs	Image changes initiated by the hotel or OTAs	Hotels use the Image Tracker module of Conttessa to verify correct image loadings per channel.

Regular Changes

Prompt Response

CONTTESSA

Use Cases

Time savings free up valuable resources

	USE CASE 1	USE CASE 2	USE CASE 3
CONTENT MANAGEMENT TASKS	A hotel needs to add a renovation notice on 10 OTA channels.	A hotel needs to update the parking charges on 10 OTA channels	Initial OTA content loading of a new property of a hotel chain.
FREQUENCY	Regular Update	Regular Update	One-time Implementation
HOTEL IMPLEMENTATION TIME	90 minutes for all 10 OTA extranets	60 minutes for all 10 OTA extranets	27 hours for 10 OTA extranets
Conttessa IMPLEMENTATION TIME	3 minutes	1 minute	4 hours
TIME SAVINGS WITH Conttessa	97% vs. manual process	98% vs. manual process	85% vs. manual process

97% freed up resources

Only 3% assigned to content management

85% freed up resources

Only 15% assigned to content management

Channel Coverage

- The number of criteria fields to be filled in by the content manager is reduced to a minimum as **one system** manages all channels.
- Using one system significantly reduces errors, making it easier to achieve **content parity**.
- This example is based on two room types. Time savings increase with additional room types.

	No. of Channels	20	15	10	5
No	Channel	No. of Criteria			
1	Booking.com	1.737	1.737	1.737	1.737
2	Expedia	2.877	2.877	2.877	2.877
3	Agoda	1.132	1.132	1.132	1.132
4	HotelsCombined	2.699	2.699	2.699	2.699
5	Hotelbeds	844	844	844	844
6	Trivago	143	143	143	
7	TripAdvisor	409	409	409	
8	HRS	976	976	976	
9	Check24	1.332	1.332	1.332	
10	Trip.com (Ctrip)	1.459	1.459	1.459	
11	Google MyBusiness	421	421		
12	Google Restaurants	156	156		
13	HolidayCheck	489	489		
14	HotelTonight	216	216		
15	Kurzurlaub	426	426		
16	kurz-mal-weg.de	249			
17	Hotelspecials	301			
18	Tagungshotels.de	680			
19	Dnata	251			
20	Dayuse	200			
OTA Extranet Data Feed¹		16.997	15.316	13.608	9.289
Contessa Data Feed²		2.648	2.492	2.326	1.936
TIME SAVINGS		-84%	-84%	-83%	-79%

¹ Total No. of Criteria (content input) for manually updating each employed OTA Extranet.

² Total Average No. of Criteria requiring manual data input after onboarding. Onboarding is ensured (automated content import) if a hotel is listed on some channels.

Conttessa GUI

Example “Hotel Profile” (Hotel Criteria menu):
29 open criteria for hotel review

Conttessa has two menus: **Hotel Criteria & Room Criteria.**

Hotels review only **missing/wrong info** (orange-highlighted) for contracted channels.

Discover more in our explainer video: [Watch now](#)

Image Tracker

Optional functionality

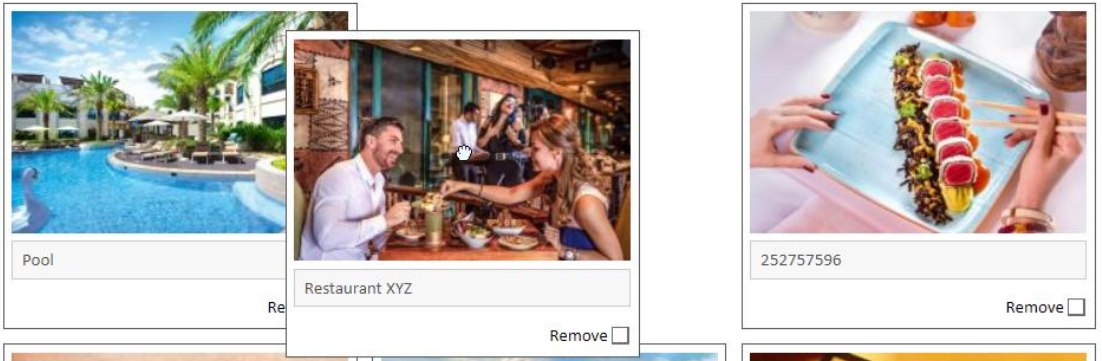

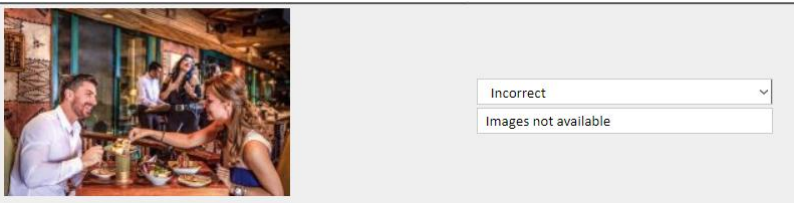

Easy upload of **images used on** all OTA and metasearch channels, supported by sorting & tagging functionality.

Subsequent checks by the hotel monitor the correct loading of images on each channel **on a regular basis**.

Benefits

- Quick overview of all loaded images per channel ensuring a consistent display
- Rapidly detect image issues on channels

Local Image Check Result

Channel	Correct Images (%)	Checks Completed
Agoda	50,00 %	11.06.2021, 28.12.2021
HRS	100,00 %	28.12.2021

The addition of an image distribution module is being considered for the future.

Customer Testimonials

TIME Hotels

“

Working with Conttessa for a year now as our central tool for handling content management have done a lot of benefits for us. ... In timely situation like Covid-19, where a lot of changes is happening to OTA as to changes of requirement or guidelines, **Conttessa team has always been there to remind us with new updates** time to time and all we need to do is to do a **one-click and they do the rest of implementation** and review needed. Indeed, a **good helping hand and reliable content tool for hoteliers.**

Lindner Hotels

“

Conttessa not only **simplifies the content management** of major partners, but also **significantly improves content quality** regarding completeness and timeliness of data. By continuous support of content specialists, process **time efforts are considerably reduced** for daily operations, and it is of great help for the responsible staff. Also **connecting new distribution partner channels is quick and easy!**

Pricing per Hotel

Setup Fee ¹	€ 300 initial one-time fee		
Monthly Fees for	up to 5 Room Types	6 – 10 Room Types	11 and more Room Types
<ul style="list-style-type: none"> • Management of up to five (5) channels ² • Bilingual free flow text field updates ³ 	€ 75	€ 100	€ 125
<ul style="list-style-type: none"> • Management for each additional channel 	€ 15	€ 20	€ 25
Optional: Image Tracker	Setup Fee	€ 50 initial one-time fee	
	Monthly Fee	€ 35 for up to 10 channels / € 3.50 per additional channel	

- 1 For each channel added/exchanged during the contract period, an additional one-time fee of € 100 per channel applies.
- 2 Includes initial review of current OTA content. Minimum contracting period is six (6) months. Volume discounts are provided.
- 3 English is the standard language for free flow text fields. German is available as a second language. More can be added, if required.

EXAMPLE with 5 room types and 5 distribution channels: € 300 + € 900 = € 1,200 for Year 1 and **€ 900 per year from Year 2.**

EXAMPLE with 8 room types and 7 distribution channels: € 300 + € 1,200 + € 480 = € 1,980 for Year 1 and **€ 1,680 per year from Year 2.**

ROI Indication

Time savings reduce cost

ROI Calculation - EXAMPLE -	
No. of Change Logs	8,000 per year
Avg. Time Spent per Change Log	2 minutes
Staff Cost	€ 15.00 per hour
Cost for Manual Changes*	€ 4,000 per year
Conttessa Fee	€ 900 per year
Cost Savings	€ 3,100 per year
Return on Admin Spend	344%

*Assumptions: Manual changes are made timely and frequently.
Example is based on average h2c client data for 1 year.

In order to maintain top quality content, the hotel must manage ALL **OTA Extranet changes**:

- For each change as it becomes effective (**frequently**)
- For fast implementation (**timely**)
- **For each channel** (managing various extranet logins, setups, structures, etc.)

Parameters influencing the number of potential changes:

- No. of Room Types
- No. of Distribution Channels
- No. of Hotel / Facility / Restaurant features...
- Complexity of Extranet
